

# MyIR: Get Immunization Records and Forms Online

MyIR provides easy, one-stop access to immunization records for you and your family.

Immunization records and the Mississippi school immunization entry form (Form 121) used to require a trip to your doctor or a county health department. You can now look up required immunizations that you or your family members need, and print a Form 121 online if your child is up to date on immunizations. It's free and convenient with **MyIR**.

- Find out if you or your child is up to date on recommended/required vaccinations for school entry.
- If not fully up to date, find out what is next on the immunization schedule.
- If your child is up to date with age-appropriate vaccinations, print out a certified copy of the Form 121 required for school registration.
- Print or save Mississippi COVID-19 Certificates of Vaccination for yourself or family members.
